

Pedro Amaro

Highly competent and ambitious graduate with a number of publications, projects and awards. Excellent technical skills, can successfully apply a wide range of solutions to a software project, including Software Architecture, Artificial Intelligence, Computer Vision and Web Development. Strong interpersonal skills as well as being self-motivated, enabling working well and independently within a team. Passionate about solving difficult problems in order to cultivate my skills, while benefiting the world as a whole.

EDUCATION

Faculty of Engineering of the University of Porto

Integrated Masters in Informatics and Computing Engineering

Bsc (3 years) + MSc (2 years)

2014 - 2019

Grade: 17/20

PUBLICATIONS AND PROJECTS

Multi-Robot Learning of High-Level Skills in RoboCup

2019

Master's thesis with an emphasis on multi-robot collaboration.

The skills that were developed are well integrated within a team.

They were responsible for winning or tying simulated soccer games.

Using Simulation Games For Traffic Model Calibration

2019

Published paper on the feasibility of calibrating traffic models with a low-cost driving simulator.

Google Summer of Code / OpenStreetMap — 3dmr.eu

2017 - Present

Began as a Google Summer of Code project and launched in March 2018.

Serves as a repository of 3D models in order to increase the graphical fidelity of 3D map renderers.

Used as an API by at least 3 other projects.

Viana do Castelo, Portugal

AWARDS

2019 | Google Hash Code

Ranked 543rd out of 6671

participants in the qualification round.

2018 | Jscrambler's Ninja

Challenge Ranked 2nd out of

650 participants.

2014 | International Olympiad

in Informatics Participant.

2014 | National Olympiad in

Informatics Ranked 2nd out of

28 participants in the finals.

LANGUAGES

Portuguese (Native), English
(C2 Proficiency), Spanish (A1)

SKILLS

Interests: Software
Architecture, Artificial
Intelligence, Simulation,
Computer Vision

Use regularly: Python,
JavaScript, Java, C++, C, SQL,
HTML5, CSS3, Git, PostgreSQL

Have used: Keras, OpenCV, Qt,
C#, Lua (C library), Prolog,
GLSL, LaTeX, Redis, NGINX
